

THE NEXT BED™

KEY FEATURES

- NEXT BED™ is the most cost effective of our freestanding range
- Available in Single, Double & King Size
- Easy lift operation
- Fast and easy assembly
- Automatic legs with protective floor caps
- Comfortable with spinal supporting sprung slatted sleeping surface
- Compact – Only 32cm from the wall with mattress
- Optional sliding / pivoting bookcase hardware available

The NEXT BED™ is one of the most modern and efficient wall bed designs to date. This particular bed offers the user a vastly improved and more comfortable sleep system, using a sprung slatted base to provide maximum support to the shape of your body.

Designed for everyday use, this is the perfect space saving solution. Whether used as a primary bed or guest bed, its compact design ensures that it requires very little room when stored. Its robust design makes the bed durable and also employs an easy lift operation mechanism that allows the user to manoeuvre the bed up and down with minimal effort.

The NEXT BED™ is a freestanding bed and not dependant on cabinetry. It can stand alone, fit into a cabinet or hide behind sliding or folding doors. It is a compact solution, standing only 32cm from the wall when upright, with the single bed system small enough to fit inside a standard 1,000mm wardrobe carcass commonly available from DIY & furniture chains.

Limited 5 YEAR warranty on manufacturer defects. Misuse, abuse, or damage by misapplication are not covered. Please note: wall bed frames and mechanisms are illustrated with cabinets and doors (purchased separately) for demonstration purposes only.
